持之以恆 保護環境

每一位環保小先鋒須每年參與不同階段的計劃。作為環保小先鋒，你們必須實際掌握自己在計劃中所學到的東西，並與計劃中的其他師弟妹分享實踐經驗。

Maintaining momentum

Each Envirokid should go through the different levels of Environmental project as they advance to another year. They have to understand what they have learned by participating in each project. They should share their experience with non-participants and with junior members.
